

Introducing geezit Cloudfiles powered by Soonr

File Sharing and Collaboration for Business

geezit Cloudfiles securely syncs your files to the 'Soonr Australian Cloud', and allows your team to work on your shared files from the PC, Mac, phone or tablet from anywhere around the world. geezit Cloudfiles is an Australian business grade 'dropbox' service, with data stored in premium data centres in Sydney and Melbourne. Soonr Workplace™ empowers mobile individuals, teams and organisations to do business faster from any device anywhere.

Soonr Workplace

Soonr Workplace is the leading secure file sharing and collaboration service purpose-built for business. Soonr Workplace offers organisations the mobile collaboration, security and balance of IT control with setup-and-go user experience.

Mobile Collaboration

Soonr Workplace One-App™

Access, edit, share and store, from our all-in-one application, ensuring ease of use and no data leakage

Optimised content delivery and rendering

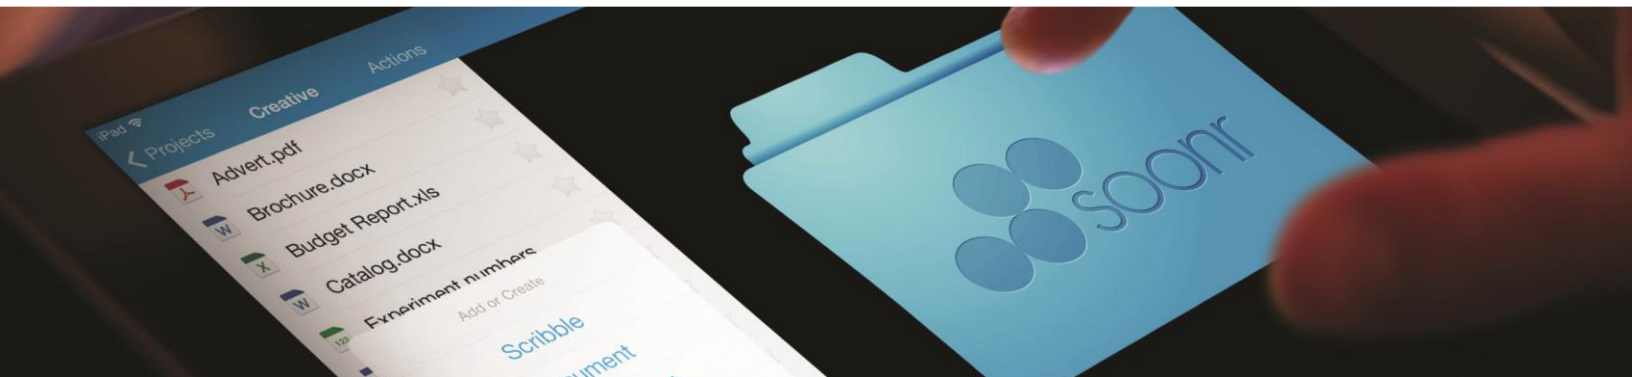

Over fifty file types are rendered to perfection on all mobile devices

Device support

iPad and iPhone, Android smartphones and tablets, Windows Phone and BlackBerry phones

Team-based sharing

Manage, organise and share files with ease, controlling access and permission on all Projects, folders and files

“Soonr Workplace is an all-in-one, industrial strength service that enables me to centrally manage all of my files, anywhere, anytime using any device with a browser.”—Andrew Zeif, Partner, Paradigm Counsel

Soonr Workplace

Enterprise-grade Security

- **Industry-leading uptime and no-breach history** – Soonr Workplace is “up” more than 99.9% of the time and has never experienced a security breach
- **Compliance support** – Meets all the key industry and government security certification requirements such as HIPAA, SSAE 16, PCI to ensure sensitive data
- **Australian geo-redundant data centres in Sydney and Melbourne** – Provides security and ease of compliance with data sovereignty and the Australian Privacy Principles

Purpose-built for Business AND Users

- **Policy-based control of content, seats and devices** – Visibility and control of all Projects, files and folders and their permissions, as well as device password policies and data wipe
- **Flexible and open** – Integration with Active Directory and public APIs for application integration
- **Setup and go** – Easy for users to start working immediately storing, managing and sharing files

About Soonr

Embraced by users and endorsed by IT, more than 150,000 businesses trust Soonr for their secure file sharing and collaboration needs. Soonr Workplace empowers mobile teams and organisations to do business faster from any device anywhere. We deliver our services through a worldwide network of cloud service providers, VARs, solution providers and system integrators. Founded in 2005 and headquartered in Silicon Valley, we are privately-held and backed by major investors.

About geezit

With over 15 years experience in the IT industry we understand what our clients are looking for. Our clients are seeking technology and IT solutions that are efficient, cost effective and easy to use.

geezit tailor solutions to meet your needs. We are experienced at working with businesses that have limited IT know-how as well as working closely with clients who have in-house IT support.

Our suite of cloud-based managed services deliver true business grade, best-of-breed solutions focused on making business use of the internet (email, web and messaging) simple, secure and reliable.
